

junior project manager (f/m/d)

for project management in the field of development of battery systems

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim, Germany. We develop and produce intelligent accumulator systems for many applications such as emergency systems, cordless screwdrivers, medical technology, e-bikes or electric vehicles. Many years of experience, reliability and flexibility are among our strengths. Our experienced and motivated team guarantees us a decisive advantage over our competitors. Decide for us and take part in our common success.

YOU OFFER US:

- A degree in industrial engineering, electrical engineering, or have a comparable education
- Independent and autonomous work
- High commitment
- Good command of English
- Ideally professional experience in project management

WE OFFER YOU:

- A secure job in a fast-growing market
- Challenging and interesting projects
- Independent and varied work
- A social and employee-oriented employer
- Very good transport connections
- A good work-life balance
- Permanent full-time employment

YOUR TASKS:

- Support of the project from the first customer contact to series production
- Creation of documentation (specifications, project plans, budget)
- Link between the customer, the departments and the suppliers
- Coordination of external development partners and the project team

We were able to arouse your interest? Then we look forward to receiving your application. Please also state your desired salary.
