

MORE POWER – WITH YOU!

Software developer / test engineering (f/m/d)

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim, Germany. We develop and produce intelligent accumulator systems for many applications such as emergency systems, cordless screwdrivers, medical technology, e-bikes or electric vehicles. Many years of experience, reliability and flexibility are among our strengths. Our experienced and motivated team guarantees us a decisive advantage over our competitors. Decide for us and take part in our common success.

WE OFFER YOU:

- A secure job in a fast-growing market
- Independent and varied work
- A social and employee-oriented employer
- Very good traffic connections
- A good work-life balance
- Permanent full-time employment

YOU OFFER US:

- A degree in computer science, electrical engineering or a comparable field of study
- Independent and autonomous work
- Good knowledge of measuring and testing technology
- Experience in object-oriented programming
- High commitment, quick perception
- Ideally: work experience in software development

YOUR TASKS:

- Concept development for automated testing of battery systems
- Implementation of additional hardware requirements (RFID, GSM, ...)
- Programming of WPF application software in C# (.NET Framework, hardware-oriented implementation)
- Programming of databases in MySQL
- Test and verification of new products
- Further development of test algorithms
- Documentation and training

We were able to arouse your interest? Then we look forward to receiving your application. Please also state your desired salary.
