

## hardware developer (f/m/d)

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim, Germany. We develop and produce intelligent accumulator systems for many applications such as emergency systems, cordless screwdrivers, medical technology, e-bikes or electric vehicles. Many years of experience, reliability and flexibility are among our strengths. Our experienced and motivated team guarantees us a decisive advantage over our competitors. Decide for us and take part in our common success.

### WE OFFER YOU:

- A secure job in a fast-growing market
- Innovative development projects
- A social and employee-oriented employer
- Independent work
- An innovative dynamic development team
- A good work-life balance

### YOU OFFER US:

- A degree in electrical engineering or a comparable field of study
- Independent and autonomous work
- Good knowledge in electronics design and simulation
- High commitment, quick comprehension
- Team spirit
- Ideally: professional experience as a development engineer

### YOUR TASKS:

- Concept creation for the hardware design for our products
- Creation of schematics and layouts (in Pulsonix or Altium)
- Test and verification of the hardware
- Coordination with our EMS service providers
- Support of our customers in the integration of our products into their application

We were able to arouse your interest? Then we look forward to receiving your application. Please also state your desired salary.
