

embedded soft- & firmware-developer (f/m/d)

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim, Germany. We develop and produce intelligent accumulator systems for many applications such as emergency systems, cordless screwdrivers, medical technology, e-bikes or electric vehicles. Many years of experience, reliability and flexibility are among our strengths. Our experienced and motivated team guarantees us a decisive advantage over our competitors. Decide for us and take part in our common success.

WE OFFER YOU:

- A secure job in a fast-growing market
- Innovative development projects
- A social and employee-oriented employer
- Independent work
- An innovative dynamic development team
- A good work-life balance

YOU OFFER US:

- A degree in electrical engineering, computer science or a comparable field of study
- Independent and autonomous work
- High commitment and quick perception
- Ideally: Professional experience in the development of embedded systems

YOUR TASKS:

- Concept development for the firmware of battery management systems (BMS)
- Hardware-related software development
- Programming of μC (STM32 and STM8)
- Test and verification of firmware on the corresponding hardware
- Implementation of communication interfaces such as CAN, USB, I²C, GSM
- Development of service interfaces, new products and services
- Documentation of the development
