

MORE POWER – WITH YOU!

Junior project manager (f/m/d) for the development of battery systems

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim. We develop and produce intelligent battery systems for many applications, such as emergency systems, cordless screwdrivers, medical technology, e-bikes and electric vehicles.

Our repeated success as a growth champion in a study by Focus and Statista shows that it pays to always think one step ahead.

Choose us and write the future success story of Smart Battery Solutions GmbH together with us!

YOU OFFER US:

- Successfully completed studies in the field of industrial engineering, electrical engineering or comparable training
- Very good understanding of the structure and connection technology of electronic components
- Ideally first professional experience in project management
- Very good knowledge of English
- Independent and self-reliant work
- Good understanding of technical feasibility and manufacturing processes

YOUR TASKS:

- Control of (partial) projects from the initial feasibility analysis to handover to series production
- Liaison between our customers, internal departments and suppliers
- Coordination of external development partners and the project team
- Ensuring that (sub-)projects are completed on time, on budget and in line with customer requirements
- Preparation of documentation (specifications, project and budget plans)

WE OFFER YOU:

- A secure job in a promising growth market
- Exciting and varied activities
- The opportunity to develop yourself together with the company
- Many employee benefits, such as free drinks, fresh fruit, voucher card after the probationary period
- Start-up atmosphere with "you-culture", short communication channels and helpful colleagues

Does that sound like you? - Then become part of our fast-growing company and apply!

Please send us only application documents in pdf format and let us know your salary expectations and your earliest possible start date.
