

MORE POWER – WITH YOU!

Employee (f/m/d) prototyping / service / small series

Smart Battery Solutions GmbH is an innovative company based in Kleinostheim. We develop and produce intelligent accumulator systems for many applications, for example in the field of last mile mobility, medical technology or for watercraft.

Our repeated success as a growth champion in a study by Focus and Statista shows that it pays to always think one step ahead.

Choose us and write the next success story of Smart Battery Solutions GmbH together with us!

YOUR TASKS:

- Independent assembly of prototypes and commissioning of battery systems, incl. testing and calibration
- Assembly of series products in small quantities
- Testing of components from suppliers before assembly
- Documentation (work plans, work instructions, error evaluations)
- Fault diagnosis, repair and analysis of battery systems
- Working according to drawings and circuit diagrams as well as independent work planning
- Close cooperation with development and production

YOU OFFER US:

- Completed training in the fields of electrical engineering, mechatronics or comparable; alternatively, several years of experience in a comparable position
- At least 3 years of work experience
- Great skill in assembling electrical/electromechanical assemblies
- Good technical understanding
- Independent and clean working style
- High motivation to grow together with our company

WE OFFER YOU:

- A secure job in a promising growth market
- Exciting and varied activities
- The opportunity to develop yourself together with the company
- Many employee benefits, such as free drinks, fresh fruit, voucher card after the probationary period
- Start-up atmosphere with a "you culture", short communication channels and helpful colleagues

Does that sound like you? - Then become part of our fast-growing company and apply!

Please only send us application documents in pdf format and let us know your salary expectations and earliest possible start date.
