

MORE POWER – WITH YOU!

MORE POWER FOR YOUR LIFE -

MORE POWER FOR OUR COMPANY!

"Power wherever you want" - this is not just a slogan of Smart Battery Solutions GmbH from Kleinostheim. It is the guiding principle of the entire workforce and our four managing directors. Everything we think and do revolves around the development and production of individual, high-quality battery solutions. Our customers are active in exciting segments such as micromobility concepts, e-bikes or e-cargo bikes, water sports applications, mobile robotics and other interesting high-end industries.

Our repeated successes as a "Growth Champion" in a study by Focus and Statista as well as our awards as "Bavaria's Best 50" award winner and as "Top Innovator 2022" (TOP 100) show that it pays to always think one step ahead.

In the course of our company's growth we are looking for you as a

Project Manager Industrialization

YOU TASKS:

- You ensure our company's success by continuously optimizing our production processes and keeping an eye on new trends
- You analyze both organizational and technical aspects of the production value stream and conduct improvement workshops with the involved interfaces
- You are responsible for the definition and implementation of production standards and develop appropriate KPIs to increase transparency
- You introduce new production processes and support the procurement of new production equipment; in doing so, you make decisions based on the production data you have analyzed and evaluated
- You develop LEAN standards (5S, Kanban, KVP, Kaizen, SMED) and enable your colleagues to continuously implement them.

MORE POWER – WITH YOU!

YOU OFFER US:

- You have a degree in electrical engineering, mechanical engineering, automation engineering, production engineering, mechatronics or a comparable field; alternatively, you have successfully completed your technician degree in electrical engineering, mechatronics or a comparable field
- You have at least 3 years of professional experience in process optimization or automation in an industrial environment
- Ideally, you have successfully completed further training in LEAN SIX SIGMA
- You are proficient in the use of common MS Office programs
- You have a basic understanding of the assembly of electrical/electromechanical components
- You have fluent German and good English skills
- You work independently, structured and solution-oriented

WE OFFER YOU:

- Good work should be rewarded appropriately - after the probationary period you will receive a voucher card with a monthly top-up of 50 EUR net; you can benefit from discount campaigns of our "Corporate Benefits" program and you will receive a 20% contribution to a company pension scheme
- We want to celebrate our successes - we do this with a summer party and a Christmas party and in case of a good business result we will involve you with a special bonus
- For us, continuous development is crucial to our success - that's why we also encourage your personal development.
- A healthy working environment is important to us - you can carry out your work in our air-conditioned buildings, alternating between standing and sitting workplaces.
- To make our employees feel comfortable, we offer culinary highlights such as our coffee with "free refill guarantee" and the popular "kebab day".

Does that sound like you? - Then become part of our fast-growing company and apply!

Please send us only application documents in pdf format and let us know your salary expectations and your earliest possible start date.
