

# MORE POWER – WITH YOU!

**MORE POWER FOR YOUR LIFE -**

**MORE POWER FOR OUR COMPANY!**

"Power wherever you want" - this is not just a slogan of Smart Battery Solutions GmbH from Kleinostheim. It is the credo of the four managing directors and the entire workforce. Everything they think and do revolves around the development and production of individual, high-quality battery solutions. Our customers are active in exciting segments such as last mile mobility concepts (e-bikes or e-cargo bikes), water sports applications, mobile robotics and other interesting high-end industries.

Our repeated successes as a "Growth Champion" in a study by Focus and Statista as well as our awards as "Bavaria's Best 50" award winner and as "Top Innovator 2022" (TOP 100) show that it pays to always think one step ahead.

In the course of our company's growth we are looking for you as a

**System engineer (f/m/d)  
for the development of battery systems**

**YOUR TASKS:**

- You are responsible for the elaboration of the system architecture of new battery systems and add-on products
- You derive the product specification from the needs of our customers and define the corresponding requirements for the specialist departments
- You are responsible for the system requirements within the development team and work closely with colleagues from the hardware, firmware and testing departments
- You are responsible for validating the development results from a system perspective
- You support our customers in integrating our products into their systems

# MORE POWER – WITH YOU!

## YOU OFFER US:

- You have successfully completed a degree in electrical engineering or a comparable field of study
- You are very familiar with the design of electronic products
- You have already gained professional experience as a development engineer, ideally you are already working as a system engineer
- You have a good command of English
- You work analytically and systematically, have a quick grasp and are a team player

## WE OFFER YOU:

- Good work should be rewarded appropriately - after the probationary period you will receive a voucher card with a monthly recharge of 50 EUR net, you can benefit from discount promotions of our "Corporate Benefits" program and you will receive a 20% contribution to a company pension scheme
- We want to celebrate our successes - we do this with a summer party and a Christmas party and in case of a good business result we involve you with a special bonus
- For us, continuous development is crucial to our success - that's why we also encourage your personal development.
- A healthy working environment is important to us - you have the opportunity to work in our air-conditioned offices or on a mobile basis up to two days per week.
- To make our employees feel comfortable, we offer culinary highlights such as our free office fruit, coffee with "free refill guarantee" and our "kebab day".

Does that sound like you? - Then become part of our fast-growing company and apply!

Please send us only application documents in pdf format and let us know your salary expectations and your earliest possible start date.
